SONY

Get that extra peace of mind

We will carefully examine your camera and submit up to 22 electrical and mechanical tests and update the firmware with the latest version.

Upon completion, you'll receive your camera back in great working order with an official Sony certificate. Depending on your product you may be eligible for another 1, 2 or 3 years of PrimeSupport (up to 5 years in total).

If we spot any problems during the check we can also perform any repairs for a small fee with your prior agreement.

Contact your nearest dealer and ask for a Sony Health Check (PSP.CAM-HC).
