

Get great HD resolution without the weight.

IK-HD1

Introducing Toshiba's incomparable, ultra-compact 3CCD HD camera.

The amazing true color IK-HD1 delivers the clearest, sharpest picture available - from the world's smallest 3CCD camera head. Our unique prism block technology gives you impeccably sharp detail with a picture so real you'd think you were there.

At only 65 grams, our tiny 1.6" camera head goes anywhere you need it - from the control room to the operating room, on a helmet or on the production line.

Get a taste of the Toshiba HD difference today. Call 877-595-4425 for a distributor or integrator near you or visit www.cameras.toshiba.com.
