

SBP-32

The 32GB SxS™, using ExpressCard™ technology, is designed for XDCAM EX series camcorders. Featuring high reliability and compact size, the card also offers a high transfer speed of 800 Mbps.

- Uses ExpressCard™ technology, the next generation PC card standard
- High transfer speed of up to 800 Mbps
- Record approximately 100min of video on HQ mode; 140min on SP mode
- Increase the efficiency of workflow with higher performance and reliability
- Specially designed for non-linear video editing systems

Technical Specifications

Format

Recording Capacity (GB)	32
ExpressCard/34 interface	YES
PCI Express interface	YES
Transfer speed (Mbps)	up to 800
Transfer speed (MB/s)	up to 100

Environmental Requirements

Operating conditions (degrees C)	-25~65
Operating relative humidity (%)	up to 95
Storage conditions (degrees C)	-40~85
Storing relative humidity (%)	up to 95

Reliability & durability

Shock absorption (cm)	150
Shock resistance (g)	1500
Vibration proof (g)	15
Insertion/extraction (times)	30000

General Characteristics

Width (mm)	34
Height (mm)	5
Depth (mm)	75
Weight (g)	27
Master Carton Quantity (piece)	5
