Battery and Charging

The MOZA SLYPOD PRO comes with a built-in lithium battery. Before using the SLYPOD PRO, please fully charge the SLYPOD PRO to activate the battery. To charge use the Type-C USB port and a USB power source like a phone charger or power bank. Solid red indicates the SLYPOD PRO is charging, solid blue indicates the charging has finished. The SLYPOD PRO will automatically stop charging when the battery is full.

Note:

1. It's recommended to use the original charging cable provided in the package.
2. Do not overcharge or over-discharge the battery, otherwise the battery cell will get damaged.
3. If the battery is idle for a long time, please recharge and discharge it every 3 months to keep it active.
