

VZ-TC100C Heavy Duty Carbon Fiber Tripod

Features:

- Dual Stage Legs with mid-level spreader
- Ideal for use with small to midsize cranes/jibs
- 100mm Bowl allows use of a wide range of custom heads.
- Can be attached to the VZ-D100 or Cinetrac Dolly for easy movement.
- For use with cameras up to 150 lbs extended, and 180 lbs retracted.

Assembly:

The three legs have three segments, to allow extension up to 57 ½ ". Make sure when packaging the tripod that all legs are locked together using the included grips, as to prevent shuffling and possible damage.

The Support System

To lock or unlock the legs after adjusting to the desired height, simply pull up the locking clamp release or push it down completely to lock. Make sure each lock is secured completely, as to prevent the segments from shifting under the weight of the camera/crane. The spreaders are adjustable, for better support.

Rubber feet are included to help the tripod grip many different surfaces; the feet are removable for attachment to dollies or other devices.

The VZ-TC100C tripod is covered by a one-year warranty (parts/labor). Please retain your receipt for warranty verification. All returns and repairs must be accompanied by a Return Merchandise Authorization number
Warnings: Do not put more than the recommended weight onto the tripod.
