To satisfy the demand by videographers for "true" fluid pan and tilt heads as supports for the new **HD SLRs** and **DSLRs**, CARTONI has revamped the successful classic **ACTION PRO**, introducing the new **PRO HD SLR**, dedicated to these modern extremely sophisticated **DSLR** and compact Video cameras.

The **ACTION PRO HD SLR** is a lightweight and compact Fluid Head offering true fluid drag and professional features to cameras weighing up to 5 Kg (11 lbs); featuring the **CARTONI** patented **FLUID DRAG** modules both in pan and tilt and a double spring counterbalance module including "0" spring setting. The **ACTION PRO HD SLR** head comes equipped with quick release sliding camera plate, orientable pan bar, positive locking pan and tilt movements and spirit level. A sturdy lightweight tripod with 75mm bowl, mid level spreader and orientable rubber feet completes the system.
