

HandyMan 100

For Cameras with weight from ca. 0.7 to 1.2 kg, increasable to 2.4 kg with additional weights. A fine-trimmer for perfect trimming of the instrument is included. The HandyMan 100 is for cameras which are already equipped with monitor (designed for use with Sony PC 7, JVC GR, and others – with additional weights for Sony 2000, Canon XM1, Sony PD 150).

HandyMan 1000

For cameras with weight from 1.3 to 2.4 kg. A colour LCD active matrix monitor is included. The monitor position is variable and works as counterweight (designed for use with Sony VX 1000 and others).

HandyMan 1000 C

For cameras with weight from 2 to 3.5 kg. Similar to HandyMan 1000 but with heavy counterweight. Includes heavy-duty table clamp for trimming (designed for use with Canon DM XL 1).

HandyMan 2000

The "Top of the line" HandyMan for cameras with weight from 2 to 4.5 kg. Inclusive colour-LCD-monitor. Trimmable both dynamic and static in all axis for perfect stability.

HandyMan SET

Complete set in protective case, including colour LCD active matrix monitor. All parts are interchangeable. Designed for all camera types from 0.7 to 4.5 kg.

EasyFlex

Comfortable vest system with a superlight spring arm. EasyFlex can be added to the HandyMan-series. This way the HandyMan-systems become comfortable body-supported balance-systems.

HandyMan[®]

The company...

ABC Products has been active in studying solutions for the moving camera technique for many years becoming an almost unchallenged expert in the field. Many television companies as well as private video and film studios appreciate the solutions that ABC Products is able to provide.

Some of our products:

Balance systems (HandyMan) Hand-carried or body-harness system for different camera weights.

Light Cranes. The lightest cranes in the world, in different lengths, from the consumer crane up to the professional crane with remote-head systems.

Light Dolly with track system

ABC Spirit Light a light system in a protective case

ABC Products is also able to find solutions for many other filming situations which have one thing in common:

filming with the moving camera!
