MKE 40

1**2****3****4**

Condenser clip-on microphone with omnidirectional characteristic for top sound-quality requirements. Suitable for vocal transmission and miking up instruments in all fields of live sound transmission.

Characteristics

- Pronounced directivity
- Small dimensions
- Insensitive to feedback
- Insensitive to structure-borne noise
- Balanced frequency response

Types

MKE 40-2 R	With miniature coaxial connector for direct connection to Mikroport transmitter SK 2012 (all types).
MKE 40-4	With miniature coaxial connector for direct connection to Mikroport transmitters SK 50 or SK 250.
MKE 40-60	To match the handgrip/powering modules K6 /K6P
MKE 40-P	phantom powered 48 V with XLR-3 plug

Fastening the microphone

See fig. ❶ and ❸. Note: If the magnet holder is used (fig. ❷), remove the clip.

Using the windscreen

The windscreen (fig. ❹) should be used for both indoor and outdoor recordings in order to avoid the effect of wind and pop noise.
