Send Your Content Anywhere

Cube will transmit live video from any location with an Internet connection. Whether your video feed is being sent back to a studio, into a video switcher, or displayed on a large screen, Cube's point to point streaming solution can bring your content to audiences worldwide.

THIS CONFIGURATION \$3,490* MSRP

* PRICE IS FOR CUBES ONLY

Streaming to an iPad

Cube enables producers, clients, and others on set to monitor every shot live on their iPads. Instead of running long, cumbersome cables to bulky monitors, Cube's ability to turn the iPad into a mobile wireless monitor liberates cinema crews from wired tethers and cluttered studios.

THIS CONFIGURATION \$1,990* MSRP

* PRICE IS FOR CUBE ONLY

Broadcast Live to the Internet

With a simple press of the Go Live! button, Cube will stream directly to your website, Facebook page, or a content delivery network (CDN) of choice. Cube supports multiple transport protocols, including RTMP, RTP/RTSP, RTP Push, MPEG-TS, and HTTP Live Streaming, which makes it the most versatile wireless video encoder available.

THIS CONFIGURATION \$1,490* MSRP

* PRICE IS FOR CUBE ONLY
