# THE THEATRESCREEN

QUALITY WITHOUT COMPROMISE FOR HOME CINEMA

NOT ONLY A SCREEN BUT A TRUE PICTURE TO HANG UP ON THE WALL. We are talking of a piece of furniture but also a fixed screen and moreover a motorized screen. It's all in one and with 6 cm the thinnest motorized screen ever seen. But we are not talking of just a screen. This is more than simply an high performance home theatre screen. The theatrescreen is something that gives quality to the room where is placed.

## FROM MAXIVIDEO THE ULTIMATE OBJECT OF DESIRE

Inspired by Glamour, Energy and Design the theatrescreen fuses Art, Fashion and Technology. A range of impressive backgrounds and frames allows you to give your touch to your theatrescreen

**UNMATCHED QUALITY IN THE  
CHOICE OF RAW MATERIALS**

## NOTHING IS CASUAL IN THIS PROJECT

The internal section shows the moving system. The screen will be always perfectly tensioned thanks to the patent system that lower the fabric tending it at the end of the operation. The exclusive 1.25 gain amxivideo "HomeVision" fabric is designed for home theater projections. It exalt the black level along with the bright white being at the same time totally hotspot effect free. With a viewing cone of 160 degrees allows you to see a razor sharp images at all angles

**THE HIDDEN FEATURES THAT  
MAKE THE DIFFERENCE**

wall mounting brackets

the moving system binary

some internal fixing brackets

Usually some features are quite obvious but in the theatrescreen all the details have been designed and handcrafted to meet the maximum result. Is not casual that the theatrescreen is so thin, and it is not casual as well that the screen is flat like a snooker table thanks to a patent moving and blocking system . Moreover is not casual that the picture in the background is so sharp and gives you a real pleasure. The picture comes from an high definition source and is printed in a high quality film on the back of a transparent polycarbonate resin

radiofrequency and infrared  
remote control

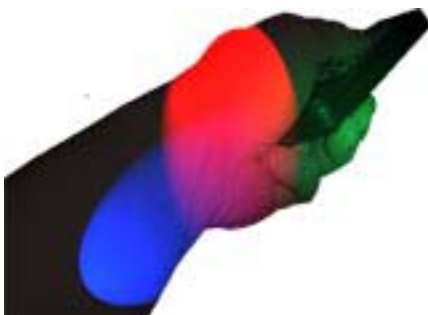

wall touch screen control

**the theatrescreen is easy to handle. There are three modes you can select according to your needs:**

**1 via radio: The remote control allows the up down functions up to 200 meter**

**2 via infrared: the alternative, with the second remote control. This way allows the dialogue with any intelligent learning remote control. Once you have copied the screen functions it is possible to use a third remote control to raise and lower the screen.**

**3 manual: the central unit can be positioned into a standard wall box. The screen can be operated simply touching the small front window**
