Available in composite or SDI configurations, the **V-R18P-SDI** offers eight high resolution 1.8-inch LCD color TFT displays in a single rack unit of space. Like all multiple screen display units from Marshall Electronics, the display face can be tilted up to 90 degrees to achieve the best viewing angle for your installation. The V-R18P-SDI is the only eight-display rack mount monitor package available with SDI inputs. This model has an active (reclocked) loop through feature and includes a universal voltage power supply and a manual.

Features:

- Eight 1.8" displays
- Occupies only 1 RU
- Contrast Ratio - 200:1
- Active loop through
- Wide viewing angle
- Low power

Applications:

- Signal confidence
- Data ingest
- Cable head end
- Server Payout
- Satellite up/down link
- Multiplexed camera signals
